

## John Lambert

John is a mechanical engineer with a master's degree in environmental studies. During his career he has worked in both the public and private sector. This included as a Director in the S.A. Cabinet Office, managing a regulation branch of the environment agency, coordinating major national projects & standards. He has also managed a national industry association.

Throughout his career John has worked closely with people from all walks of life and understands that despite our differences everyone deserves a chance. He understands that on occasions we all need the support of others. John has always devoted time to supporting others from being the President of his children's primary school to being a driver picking up donated furniture. He has served as a member of various Boards & supported many community projects.

In his spare time, when he is not looking after grandchildren, John & his wife enjoy gardening, travel, and old motor cars. John is keen to increase his involvement in the work of CISVic to help those who are less fortunate or those who are going through difficult times. He draws on his skills gained from membership of several Boards to assist CISVic achieve its objective, in particular by working closely with major supporters including government, members and sponsors.
