

LOCAL SERVICES FOR TENANTS IN PUBLIC HOUSING

The Social Housing Advocacy and Support Program (Tenancy Plus) provides tailored case management and support to public housing tenants to maintain their housing and prevent homelessness.

Tenancy Plus provides tenants with tailored support to help maintain their tenancy in situations where this is breaking down or at risk of breaking down.

The program can also connect tenants to a range of non-government services in their local community, where they can get independent help and support.

The contact details for Tenancy Plus services are below.
